

# family, resident, and staff update

November 10, 2022

## COVID 19 Outbreak

Dear St. Teresa Place families, residents, and staff,

As of November 10th, 2022, there are 17 residents have tested positive for COVID 19 and two staff have tested positive for COVID 19 who worked during their infectious period. There is one case on Grace East, one case on Grace West, one case on Joy West, and 14 cases on Hope East. As of this communication, all of the residents in the affected areas are doing well.

We have been in contact with Communicable Diseases and an outbreak has been declared for Hope East.

Low risk group recreation activities have continued on non-outbreak neighborhoods, but they are restricted to one neighborhood at a time. Specialized 1:1 visits and programs delivered via the internal TV channel remain in place for outbreak neighborhoods.

We are doing all we can to contain the outbreak, working closely with our zone's Medical Officer of Health and Alberta Health Services. We are monitoring residents very closely and diligently.

As with previous outbreaks, the outbreak status will be updated at [covenantcare.ca](https://covenantcare.ca) by 6 pm every Thursday. Please direct questions to me at 587 619 7116 email STP at [admin@covenantcare.ca](mailto:admin@covenantcare.ca).

We thank you for your support, patience and understanding during this period. We will continue to update you as the situation evolves and as we receive further instructions from our zone Medical Officer of Health.

Please, stay healthy and safe.
