WHAT IS PHASE II?

Phase II is a 60-bed Long-Term Care program, sometimes also referred to as a nursing home. Phase II is connected to Phase I, our 100-bed Supportive Living community in Red Deer.

WHAT'S IN A NAME?

Villa Marie's name celebrates Red Deer's rich Catholic history and recognizes Sister Marie Agathe, the first Superior of the Daughters of Wisdom in Alberta. The name Marie also honours the Virgin Mary as the "Mother of Wisdom", and it was a common name among the Sisters who served in Red Deer.

WHAT IS LONG-TERM CARE?

Long-Term Care is also sometimes referred to as nursing homes. Care and accommodation services are provided for people with complex health needs who are unable to remain at home or in a supportive living setting. Health care services are publicly funded and are based on AHS care plans and include care, medications, medical-surgical supplies and medically necessary transportation.

Differences between Long Term Care and Supportive Living include:

- Long-Term Care residents require 24 hour Registered Nursing care;
- Therapeutic services such as Occupational and Physical Therapy are provided by Covenant Care staff;
- The cost of medications and supplies are covered in the funding care funding. In Supportive Living, these are paid by the resident.
- Each resident room in Long-Term Care is furnished with a bed, night table; in Supportive Living the resident is required to provide these items.

LIVING AT VILLA MARIE

Alberta Health Services (AHS) Transition Services coordinates Villa Marie admissions. Your loved one can list Villa Marie as his or her preferred location and AHS will assess him or her for eligibility.

WORKING AT VILLA MARIE

We recruit staff of all faiths, traditions, and cultures. Covenant Care staff members will have the opportunity to be a partner in service, make meaningful contributions based on their skills and abilities, and provide a safe and welcoming home for our residents and their families. For career opportunities visit: CovenantCare.ca.
