

family, resident, and staff update

December 27, 2020

VILLA MARIE COVID-19 OUTBREAK ALL CLEAR

Dear families,

We are pleased to let you know that the COVID-19 outbreak at Villa Marie has been cleared by the Medical Officer of Health. The staff members who tested positive have recovered. All residents or staff who were tested were negative.

We are once again in prevention mode. We are continuing to monitor everyone very closely and following all public health directives. The infection was fully contained thanks to everyone's efforts.

We are proud of our team for taking every precaution to contain the virus and for remaining calm throughout and thank you for your continued support and understanding.

Please stay safe. There is concern with the rising numbers of positive COVID-19 cases in our province and it is crucial that we all contain our bubbles of interaction and adhere to the protocols for wearing a mask, washing our hands, and maintaining physical distance. Please continue to take every precaution you can to be healthy.

If you have any questions, please contact your Resident Care Manager at (587) 341-4221 or email admin@covenantcare.ca.
