

family, resident, and staff update

May 31, 2024,

GI Outbreak

Dear St. Marguerite Manor families, residents, and staff,

We learned May 31, 2024 that 3 residents on Wellness 2 have GI symptoms putting us in a GI Outbreak. All the residents who are sick in the impacted area are isolated and being closely monitored. Our team is working diligently to contain the outbreak.

As precautionary measures, we have:

- Isolated residents who are symptomatic to their rooms and are providing with tray service.
- All other residents are also being monitored for symptoms.
- High risk activities such as singing and outings and group activities are halted for Wellness 2 residents only.
- Staff are co-horted to work on the affected units only during their entire shift.
- Visitors to the affected units are encouraged to complete proper hand hygiene and only visit when well.
- Implemented high touch cleaning 2 times daily to the affected units.

We are doing all we can to contain the outbreak, working closely with our zone's Medical Officer of Health and Alberta Health Services. We are monitoring residents very closely.

As with previous outbreaks, the outbreak status will be updated at covenantcare.ca by 6 pm every Thursday. Please direct questions to me at 587-230-5633 or email admin@covenantcare.ca.

Thank you for your support patience and understanding as we navigate through these times.
