

family, resident, and staff update

April 11th, 2025

Respiratory Outbreak

Dear Villa Marie families, residents, and staff,

There are 4 symptomatic residents that have Respiratory symptoms on LTC2. We are performing the required testing as outlined per the AHS Outbreak Team.

As precautionary measures, we have:

Those affected residents in isolation in their suites and receiving their meals on disposable trays. We are halting any high risk Recreation activities. For ex: Any group activities on the unit. We are performing high touch cleaning on LTC2 & in common areas.

Families may still visit their loved ones on the unit, but please ensure that good handwashing is completed prior to entry to the unit & after leaving the unit and a mask is worn while on the unit. Thank you for your cooperation in preventing the spread of the Respiratory Illness.

We are doing all we can to contain the outbreak, working closely with our zone's Medical Officer of Health and Alberta Health Services. We are monitoring residents very closely.

As with previous outbreaks, the outbreak status will be updated at covenantcare.ca by 6 pm every Thursday. Please direct questions to me at 403 406 5700 Ext. 501 and Donna will direct your call to the appropriate person or email admin@covenantcare.ca.

Thank you for your continued support, patience, and understanding.
